# G-CHECK

## Measuring instrument for mesh tension

### Particular features

- Safe and simple checking of the mesh tension
- Measuring range between 7 and 50 N/cm
- Standardizes the stretching processes
- Usable for all the commonly available types of mesh (PET, PA, steel)
- Optimal handling
- Big and easily readable scale graduation
- Functions without battery respectively without electric power supply
- Simple functional checking
- Adjustable in virtually no time
- Attractive price
- Including calibration certificate

Size	Length	mm	76
	Width	mm	44
	Height	mm	110
	Weight	kg	0.47
Stretching range	Mesh tension	N/cm	7 - 50

The machine is in compliance with the EU machinery directives (CE-conformity)
